An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the ULB's preparation of the Financial Statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes valuating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by ULB's Management, as well as evaluating the overall presentation of the financial statements.

An audit does not give assurance that all the errors and fraud if any will be detected because fraud involves a misrepresentation of financial statement which deliberately involves collusion, forgery involving misrepresentation or override of internal controls. For such fraud which deliberately involves collusion, forgery involving misrepresentation or override of internal controls auditor cannot be held responsible.
